

# SPONSORSHIP OPPORTUNITIES

## GREEN DRINKS SPONSOR: \$1,500

Building Sustainable Connections seeks to create a network of local innovators. To build this network, we will engage students, professionals, interested individuals, and business leaders through a monthly social "Green Drinks" networking event. Sponsorship covers space rental fees, provides hoer d'oeuvres for guests, and affords your organization a 30-minute opportunity to discuss your organization's sustainability efforts.

## PROGRAM SPONSOR: \$2,500

Many organizations lack the financial capacity to implement or install energy efficient products in their space. This program will provide energy efficient products to qualifying area small businesses. Measures supported by this program will introduce LED light bulbs, programmable thermostats, weather stripping, and Energy Star appliances to qualifying businesses as well as fund an initial energy audit.

## EDUCATION SPONSOR: \$5,000

Aid in the research, development, and marketing of materials related to sustainable business practices and innovations. This includes a newsletter where sponsors will be recognized for their contribution in making these efforts attainable to the Sioux Empire Community. Sponsors for this project will also receive special thanks with a certificate, and will have their logo featured on our website with thanks for their contribution.

## SUSTAINABLE SPONSOR: \$10,000

Building Sustainable Connections relies on the generosity of our community to help us in our mission to create an equitable, green, and thriving community through environmental, social, and economical improvements. Sustainable sponsors help us to cover operational expenses, grant us access to industry leaders and innovators, and ensure that our organization is able to create an equitable, green, and thriving community.
